THG
PARIS

ICON-X

Design by
STUDIO F·A·PORSCHE

THE ART OF MATERIALS

Mixture of fluid and taut lines, the use of specific materials, THG Paris has brilliantly met the challenge proposed by Studio F. A. Porsche.

Designed and developed with Studio F. A. Porsche, ICON-X promises to be one of THG Paris' emblematic series.

A monolithic collection with timeless lines, elegant in its curves and slender profile, ICON-X seduces even in its manufacture.

Thus, ICON-X alone embodies the shared values of the two Houses, and offers a functional and sensitive experience, a claimed Art de Vivre. The signature: an assertive and timeless design that goes beyond trends.

Exclusive Distributor

TITANIUM

Generally used in the aircraft and space industries, titanium has exceptional thermal, mechanical and anti-corrosion resistance properties. Bio-compatible like gold and platinum, this light white metal lends itself wonderfully to the design of excessively thin parts and meticulous decorations.

CARBON GOLD

Carbon gold has a spectacular look that changes with the light. Used in boats in the Vendée Globe or in Formula 1 racing, it is manufactured under high pressure conditions to reveal the inner beauty of the organic pattern formed by the carbon fibres. This perfect "fusion" creates a ribbed effect whose singularity and finesse is absolutely unique.

METAL

Metal has many advantages in the Icon-X range of fittings. A mixture of metals gives the fittings a clean design with an aesthetic appearance and a unique texture. The metal version offers the possibility to match colored inserts for a customised and tailor-made finish. Absolutely unique.

reddot winner 2021

ICON-X RECEIVES THE "PRODUCT DESIGN 2021" AWARD.

The Red Dot Design Award is a prestigious worldwide competition that rewards the most innovative design concepts since 1995. Each year, its jury of international experts distinguish objects that are especially aesthetic, functional, intelligent or innovative. What do they have in common? Exceptional design quality.

THE BOLD LOOK
OF **KOHLER**®

DESIGN FOR DRAMA

Kohler's use of bold color has added character and personality to kitchens and bathrooms the world over, transforming everyday objects into elements of beauty and expression.

Today, we continue that legacy through Matte Black. Confident yet refined, powerful yet approachable, Matte Black is an eminently versatile finish that punctuates any space with a sense of intriguing sophistication.

The Components® and Parallel collections exude the sculpted minimalism that perfectly highlights the Matte Black finish as a way to complete your design vision.

Portobello

LIVERPOOL COLLECTION

The history of rectangular wall tiles for wall coverings was employed in the 19th century in The Tube, the name of the underground subway in London. This was the inspiration for the Liverpool line, in a very contemporary reinterpretation. Liverpool presents basic and neutral colors in glossy and matte finishes, with subtle embossments to update the original version of the wall coverings of the iconic underground subway station, Liverpool.
